FL-803 Type Automatic Loose Radial Lead Cutter

	A	Body diameter	3 - 10 mm
	H	Foot length	2.6 - 20 mm
	W	Wire diameter	0.4 - 2.0 mm
	Processing capacity		200-300PCS/Min

Spec

Input Power: 110V/220V AC 60HZ/50HZ

Size: L840*W560*H960MM

Speed: 18000PCS/H

Weight: 105KG

Power: 250W

Air pressure: 4-6kg/cm²

Features

- This equipment is the exclusive equipment for cutting the pins of bulk radial components. It feeds by flat surface and it is appropriate for cutting pins of various components.
- The cutting machine group and the vibrating feed group can operate separately or mutually, thus increase its scope of application.
- It can realize the operation of automatically sending materials of components including electrolytic capacitor(diameter 3-10mm, height not over 16mm), luminous diode (diameter3-8mm),transistor and part of ceramic capacitor and

so on. Other allotypic radial components can also realize the operation of cutting pin by customized feed plate.

- The maximum processing speed reaches 300PCS/MIN, thus effectively cuts pin.
- Appropriate for mass production and the best auxiliary equipment for short pin operation.
- This equipment is comprised of three parts: cutting machine, vibrating feed plate and bracing trolley.
- If there is any component that can not be fed by this machine, then customized vibrating plate is available. It adopts FL-803S type to finish the operation of cutting pin.
